" THE IDEA BEHIND OUR ENGLISH LANGUAGE INSTITUTE WEBSITE "

It's our midterm assignment to create a website .

Initially , We considered creating a website based on research work, but as beginners we found it challenging.

Instead, We decided to create a website for an English Language Institute, Providing valuable resources for language learners. So, that's how we cameup with the idea💡 to create a website for an ENGLISH LANGUAGE INSTITUTE.

"NAMING AND LOGO DESIGN"

After choosing the website topic, we:

1. Named our English Language Institute "Global Speak" because English is spoken worldwide.
2. Designed a matching logo: a globe with a microphone, representing global English communication.

Our website contains six pages that includes:

1. Home.
2. Course .
3. Form.
4. kids .
5. About .
6. Contact .
